

LIEM KADAS

New York, NY | liem.kadas@gmail.com | Portfolio: [LiemKadas.com](https://liemkadas.com) | [Linkedin](#)

Data & Financial Reporting Consultant | Business Analytics | Executive Reporting

CORE SKILLS

Data Analytics - advanced Excel, spreadsheets, data wrangling, big data transformation, pinpoint-accurate data QA checks, data integrity and governance, reconciliation, PDF / spreadsheet processing and visualization.

Financial & Operational Reporting – QuickBooks, revenue forecasting and analytics, billing analysis, KPI reporting, invoice generation, variance analysis, board-ready deliverables, financial / statistical modeling.

Consulting Strengths - stakeholder communication, requirements gathering, documentation, data-quality audits, workflow mapping, insight storytelling, deadline management.

PROFESSIONAL EXPERIENCE

Independent Consultant | New York, NY | 2024 - Present

- Saved 100+ hours per month for small- and midsize-business leaders by providing essential reports and delivering decision-ready data and financial insights without requiring a full-time hire.
- Built and maintained daily, weekly, and monthly raw and Excel-based reporting workflows that transformed raw operational, clinical, billing, scheduling, and CRM data into leadership-ready deliverables.
- Created financial and operational reports supporting visibility into \$7M+ revenue cycle metrics, admissions performance, and service activity across 4 departments to accountability.
- Audited and reconciled 45,000+ billing and clinical records across operational systems to identify missing documentation flags, provider-attribution issues, and data-quality risks.
- Automated recurring manual reporting processes using proprietary structured data templates to improve speed, consistency, and accuracy, reducing manual report-production time from 2 weeks to under 1 week.
- Translated technical findings into clear summaries, charts, spreadsheets, and executive-facing narratives for nontechnical stakeholders.
- Applied text analysis, clustering, PDF extraction, spreadsheet processing, and visualization methods across hundreds of files to turn unstructured and semi-structured data into usable business insights.

Chief of Staff MBA Intern | J Fab Consulting | Pittsburgh, PA | 2023

- Partnered with a consultant on a project for L.M. Colker, utilizing the founder's Six Sigma methodologies.

Operations Lead | Forge Trust Co. | San Francisco, CA | 2017 - 2022

- Disclaimer: team migration including CEO from PENSICO Trust to Forge Trust. PENSICO Trust was acquired by Opus Bank. Previously served as the Accounting and Finance Staff at PENSICO Trust.
- Reduced outstanding valuation queue from 3,000+ to <300 by inventing and implementing a mechanism design-based incentive system, enhancing team productivity via quantitative analysis with Microsoft Excel, and delivering actionable insights that drove strategic business development.
- Provided training, guidance, and mentorship to 5 direct reports while demonstrating an empathetic leadership style and effective interpersonal communication through onboarding, weekly meetings, and quality control sessions. Led a Fintech team of 4 employees responsible for \$13B in assets under custody (AUC) valuations.

SELECTED CONSULTING PROJECTS

Assistant Director, Data Efficiency | Healthcare | 2025 - 2026

- Mapped and transformed multiple data pipeline, including admissions, billing, insurance claims, CRM, verification of benefits, medical audits, and healthcare research.

FP&A Manager | Seasonal Tourism | 2025

- Managed disputes, calculated sales commission compensation payouts, and reconciled \$10M+ revenue from 500,000+ unique customers' transactions.

Senior Associate | Consulting | 2024 - 2025

- Built strategic business frameworks for consultants and Blackstone's workstreams (private equity).

EDUCATION

STEM MBA | Carnegie Mellon University | Pittsburgh, PA (Full-time)

Bachelor of Economics | Sacramento State University | Sacramento, CA (Full-time)
